

# WHERE WE DO IT

## Our locations

Aggreko has global reach through an international network of service centres spanning Europe, North, Central & South America, as well as in the Middle East, Asia and Australasia. Our 133 service centres in 31 countries enable us to combine local knowledge, strong customer relationships and efficient logistics to provide excellent service and speed of response, while our commitment to managing the business and assets on a homogenous and global basis mean that each local service centre can draw on huge resources to support their customers.

This is a key competitive advantage: being close to our customers means we can be there in an emergency, able to respond quickly to their needs. At the same time, as a global business, we can use our resources strategically, moving staff and equipment around the world to wherever our customers need them.
